WORK EXPERIENCE

YouTube Clone – Video Streaming Web App

- Developed a responsive YouTube Clone using React.js, implementing a fully component-based structure for modular and scalable development.
- Implemented React Router DOM for client-side routing, allowing smooth navigation
- Used JavaScript (ES6+) for dynamic functionality such as search, video playback, and interactive UI features.

Jewellery E-commerce Website – Elegant Online Store

- Developed a full-stack jewellery e-commerce website using MERN (MongoDB, Express.js, React.js, Node.js).
- Built responsive and interactive UI components and connected them to MongoDB backend for product management.
- Implemented product filtering, category navigation, dynamic product pages, and React Router DOM for seamless client-side routing.

Travel Website – Client Project (Frontend | Team Collaboration)

- Contributed as a frontend developer to a client-based travel website built using React.js.
- Collaborated with two team members, working closely with the backend team using Firebase.
- Built responsive and accessible user interfaces using React.js and modern CSS practices.
- Integrated frontend components with Firebase-backed APIs and services.
- Worked with the client to implement requirements and deliver a production-ready solution following best practices.

SKILLS

- Proficient in HTML5, CSS3, JavaScript, and React.js for building responsive and interactive web applications
- Experience in full-stack MERN project using MongoDB, Express.js, Node.js, and React.js.
- Familiar with performance optimization, modern tools, and best practices to deliver efficient.

EDUCATION

2023-2027

National College of Business and Administrator

Bachelor of Computer Science
